

Senator Edward Meyer, Representative Linda M. Gentile and the Environmental Committee, Concerning HR Bill # 6541, I oppose allowing online courses in boater and hunter safety.

After learning about the consideration of the bill, I found it incredulous the idea that something as important as the safety of the operators, passengers and innocents in other vessels would be subject to the actions of one who POTENTIALLY enlist a "stand-in" to complete the coursework for them. It's even scarier to think of hunters who are too lazy (or worse, stupid) to pass the coursework being foisted upon an unsuspecting public in a similar fashion.

I admit I know little about the issues that govern either activity, but I would hate to be the victim of someone who could easily beat the system because you have no idea who actually completed the coursework satisfactorily.

I appreciate your time, and hope you consider this side of the issue before making a decision.

Respectfully,

Brian Wilson
