

I know that your committee is considering changing the law to allow a short on-line computer course to take the place of classroom-based safe boating courses. This is a really bad idea.

Please do not allow this new law to go into effect –

- who even knows this law is being voted on? what have you done to ensure boaters on the waters are aware this is happening? I would think any boater with a valid registration should have received a letter saying this was coming up for a vote. education should be encouraged not turned into a joke. with all the boating accidents on Long Island I am strictly against this.

- you can't ask any questions or hear from other boaters how something is done or not done. we learn from others mistakes.

I STRONGLY oppose changing the regulations/laws regarding Boating Safety training at this time.

Thank you -

Respectfully,
