

Dear Sir,

I oppose this Bill and oppose allowing on line courses in Boating and Hunter Safety.

This regulation is being rushed. When my husband and grandchildren took a course in boating safety, it was important to interact with the teacher and the students. The props used by the instructor and the questions of the students were helpful. Using a PC at home does not compare to a student/teacher relationship.

I strongly oppose changing the regulation/laws regarding Boating Safety and Hunter Safety training.

Thank you.

Carolyn Pace
