Hartford, CT 06106**

Attention: Senator Edward Meyer and Representative Linda M. Gentile

I strongly suggest that [H.B. No. 6541](#) be passed to allow online education. Most of the country including many of our leading colleges and universities are currently providing this type of educational courses. Let's bring Connecticut up to date and into the 21st century. There are plenty of organizations available to handle those students that want to attend classes locally.
