

Dear Sirs:

I am greatly concerned with the Bill 6541 which if passed will allow on-line classes on boating safety and gun safety. This means there will be no instructors to demonstrate and emphasize important aspects of boating and gun safety. Diagrams do not always tell the whole story and questions from students cannot be answered readily. I strongly believe that this bill should NOT be passed.

Yours sincerely,

Henry B. C. Low, M.D.  
Director emeritus, Cardiothoracic Surgery, Hartford Hospital  
Professor of Surgery, University of Conn. Health Center
