

For the Environment Committee, concerning HR Bill # 6541 - hearing on Friday March 8, 2013,

I know that your committee is considering changing the law to allow a short on-line computer course to take the place of classroom-based safe boating courses. That's the change in the law that is also is going to allow on-line training for firearms. This is a really bad idea.

Please do not allow this new law to go into effect for the following reasons:

- this rule change has not been well publicized so that the public can comment on it
- on line training is good for some things, but it's not good for "drivers ed" - it can't be good for "boaters ed"
- you can't ask a question of a computer
- you can learn from other students while you are at home taking the course on your laptop
- you learn about boating from boaters - this is a cold computer, not a real person
- I had to work for my "diploma" - why should the new students have it really easy and not know as much as I when boating
- how do you know that the person taking the test is really the person who took the course

Sincerely,  
James Feuer
