

I know that your committee is considering changing the law to allow a short on-line computer course to take the place of classroom-based safe boating courses. That's the change in the law that is also is going to allow on-line training for firearms. This is a really bad idea.

I have been hunting for over 25 years and fishing/boating for over 35 years. These sports require a certian amount of knowlege and skills. Many of these skills are learned yet can be taught in a classroom as a better method. Questions need to be asked and answered by a known authority to make this happen wich is not possible using a computer for test and training...

Please do not allow this new law to go into effect – It will result in a loss of life in my honest oppinion.

Respectfully,
Jeff Calderone
