

To Senator Edward Meyer, Representative Linda M. Gentile and the Environmental Committee,

I strongly oppose a bill allowing boating, hunting and weapons training to be taught on-line. You can easily have someone cheat for you. I took a boating instruction course IN PERSON, and was reassured to know that no one could get on the water who wasn't trained in person. This allows us comfort. You cannot imagine how UNSAFE I would feel if weapons training was taught on line. Terrible idea. Please don't pass this bill.

**Sincerely,
Marilyn P. Jensen**
