

Online training is good for some things but not good for drivers Ed so it cannot be good for boaters Ed. I took a very long 8 hour class with my husband and children and we learned so much about safe boating practices. We watched some clips of how boating can go very wrong if you do not know what you are doing. This is a terrible idea to Change this law. I see a lot of fraud could occur-- how do you know if the person taking the test online is really the right person. I want our waters safe for boaters and changing this law will make our waters very unsafe. I live on Long Island and hope that my neighbors in Connecticut will do the right thing by keeping us all safe

Sincerely

MaryLou Whitcomb
