

To whom it may concern:

I know that your committee is considering changing the law to allow a short on-line computer course to take the place of classroom-based safe boating courses. That's the change in the law that is also is going to allow on-line training for firearms. This is a really bad idea.

Please do not allow this new law to go into effect. Not only do I think that you should have an actual in personal class for boating, but the idea that there can be a computer class that will teach weapon safety and then someone can get a gun is just insane. You actually want to make it easier for someone to get a gun by just signing up on-line. What if they are the one who actually takes the test. Please, please please stop this!!!
