RE: Senate Bill 843, An Act Concerning Revenue Items to Implement the Governor's Budget

Dear Senator Witkos,

While I would appreciate paying less or no personal property taxes on my automobile, the idea that towns and cities would not have to make up for this lost revenue by some other means of taxation is a foolish notion. Please do not vote in favor of Senate Bill 843.

Perhaps current laws and or regulations could be reviewed to make it mandatory for anyone purchasing a new car to obtain proof from their town of residence that they do not have any delinquent personal property tax owed on their automobile(s).

Sincerely,

Charity Folk
