**Subject:** H.B. No. 6656

To Whom it may concern:

Even though I am not a gun owner, I am **opposed to H. B. 6656**. Aside from the obvious fact that it would infringe upon my rights and is unconstitutional, the proposal is unfair and punishes the law abiding citizens. I am disapointed in my representatives for not addressing the real issue of mental health and enforcing the existing laws that are already on the books. I am even more disappointed in the govenor's childish "If you don't like it, then sue me" attitude. He and the rest of you were elected to protect and uphold our constitutional rights. Instead, you put the burden of proof on us; that is wrong. I and many others, both gun owners and non, are paying attention to the outcomes of this emotional debate. We already feel that our govenor is a dissapointment and mistake for CT; we hope that our legislators will not be like him.

Respectfully,

Greg Kozmon
