Subject: Raised Bill HB6656

Joseph J. Puglisi
64 Old Farms Lane
New Milford CT. 06776

Dear Honorable Committee Members;

- I would like to take this opportunity to make very clear to you my passionate and complete disapproval and disdain for the unconstitutional and emotionally based legislation contained within **Raised Bill HB6656 -An act concerning liability insurance for firearms possessors or owners.** It is my strong belief that the requirement of "personal liability insurance" for firearms owners is a seriously discriminatory and unconstitutional mandate, aimed at creating a cost prohibitive environment for those who wish to exercise their federal and state constitutional rights, and their natural birth right to self preservation and protection!

I will be keeping notes on the positions of all elected officials concerning all proposed firearms legislation and will refer to them when the time comes for my votes in the next election!

Thank you

Joseph J. Puglisi
