Subject: HB 6656

Committee members, I urge you not to support HB 6656. Do not even take it seriously. We Americans are blessed with God given, constitutionally protected rights. We have the right to life and liberty. By requiring insurance for those who may possess legally owned firearms, you are restricting and quantifying our 2nd Amendment right. The 1st Amendment is abused all the time, no one thinks of requiring laws mandating insurance to members of the media or to citizens. I also consider this to be an invasion of privacy and form of taxation. Is it ok to tax any of our Constitutional rights? NO. The power to tax is the power to destroy. And in closing, this bill is useless in preventing any future acts of violence. This bill is an abomination. It must not be supported. Respectfully, Mike Santangelo, Prospect
