

Honorable members of the Insurance and Real Estate Committee

I am Robin Emond from the town of Cheshire.

I am writing in opposition to **HB No.6656-**
'AN ACT CONCERNING LIABILITY INSURANCE FOR FIREARM POSSESSORS OR OWNERS'

This is yet another infringement on our rights. By continually adding fees, restrictions and regulations to gun ownership our government is deciding which income levels may exercise their right to defend themselves. This is discriminating against some of the most vulnerable citizens.

I ask you to consider these questions:

Who will guarantee safety of ALL citizens?

Who will be held accountable for those that can't afford to defend themselves?

Will those that are less fortunate be subsidized by a government that is on the brink of bankruptcy, leaving only the ever lowering middle class from protecting themselves?

Do you honestly believe that you, as elected officials sworn to the Oath of Office, have Enumerated Powers to decide who should be able to protect themselves, their family and their state/country??

I ask that you rethink taking any action on this bill. Law abiding Connecticut residents are being vilified from every angle on these unprecedented gun issues. A horrific act occurred by a sick person-taking action against the tool and the law abiding citizens of this state will do nothing to keep us safe. In fact, it will only make us potential victims because of the infringement on our rights to defend ourselves.
