Subject: H.B. 6656

I write in opposition of H.B 6656.

This is just another attempt to burden the law abiding gun owners in Connecticut and will do nothing to prevent crime or stop the acts of a madman. May I suggest instead that you adopt legislation that will protect and hold harmless anyone who has to defend his family in his home using a gun or other weapon at his disposal as did the Good folks in North Carolina when they Adopted The Castle Doctrine SB928.

Please do not approve this bill.
