**Subject:** HB6656

## **I OPPOSE HB6656**

I oppose the current bill on liability and self-defense insurance for gun ownership . The insurance companies will not provide such insurance. The criminals and the violently insane will not stop and think "Oh, I have to get insurance before I commit this act of violence". Also you are establishing a caste system that allows only the rich to be able to afford the right of gun ownership without insurance. The State Constitution has provided to all legal citizens of Connecticut the right to possess guns for the protection of themselves and their families without having to purchase insurance. **You have sworn to uphold the State Constitution. Are you trying to disarm us through taxation?** Because of HB6656 only the rich will be able to enjoy the rights that the State Constitution guarantees. Think carefully about **your motives** for denying the rights of responsible and sane citizens. Do not be caught up in emotional knee-jerk reactions or the current political fad. You are the servants of ALL citizens regardless of their political party and not a select group.
