

3/19/2013

To whom it may concern:

This written testimony (submitted on my behalf by the Connecticut Carry organization) is to express my concerns over the following proposed bill:

H.B. No. 6656 – AN ACT CONCERNING LIABILITY INSURANCE FOR FIREARM POSSESSION OR OWNERS

If this bill were to pass it would restrict the ability of thousands of law-abiding citizens to protect themselves and their families by giving insurance companies the power to decide who gets this extended liability coverage. Also, considering that there are individuals and families that simply would not be able to afford this insurance, this bill would infringe on the constitutional rights of many based on economic status.

Best regards,

Matthew J. Tauris
