I believe this is not a good bill
to me and many others it makes no sense
#1 does this law pertain to criminals - you know law breakers
like rapist, car-jackers- drug dealers as well
meaning they to have to have/ carry Ins on their tools of the trade
#2 and if so- what happens to them if they don't?
I mean after they commit the crime with a gun that's not ins.?
what charges will be plea bargain out?
my answer is - No
I think you more time to realize who the bad guys are
and who the good guys are
before imposing such a law
thank you for letting me voice my 1st amendment right
and helping me keep my 2nd
I hope this gets read, feel free to contact me

I appose this law, and by no means will this stop crime
please think about it for more then a second on how this will stop crime.
even if the Law Biding Citizens comply
do you real think the law breakers will as well.
and IF they don't have Ins. on there illegal firearm what then
please tell me you are smarter then a 3rd grader
the line on 6th grader was used already
