**Subject:** RE HB 6656

Thank-you for taking the time to read this testimony in regards to HB 6656.

This bill is clearly a result to use a horrendous act for self profiteering. It is in no way an act to enhance the safety of the public.

This bill is a disgusting effort and abuse on the families, whom have, and are clearly suffering from their loss, for selfish gains in profits.

For anyone of this Committee to not see through this and even consider this Bill HB 6656 is beyond comprehension.

Perhaps a committee should be started to force the insurance companies to deal with the mentally ill, and introduce a Bill to address those issues.

It is unbelievable how the unrestrained grasping to encroach and dismantle the freedoms of the US Citizen is being considered.

Perhaps each and everyone on this committee should re-read their oath of office.

Thank-you  
Richard Szentkuti  
Ridgefield Ct
