Dear Sir or Ma'am,

My name is William Meier, and I reside in Newtown, Ct. I am a resident and firearm owner. I fail to understand the purpose or reasons to require the purchase of Insurance on unalienable right granted to us under both the US Constitution and State Constitution. Likewise this can only be seen as a scheme of constructive confiscation of firearma. My definition of constructive confiscation is to make the cost to own firearms so prohibited such to make them available for only the selective few. Certainly this must raise grave concerns as it is certainly not what the "Bill of Rights" intended by the 2nd Amendment. I remind you that firearm ownership is a "right" and not a "privilege." Any laws that infringes upon those rights by back door schemes of taxes, fees and insurance scheme need to fully rejected. Thank you and trust you will do the right thing by rejection of this bill.

Regards
