To Whom It May Concern on the Connecticut Judiciary Committee:

I wish to ask that Andrew J. McDonald not be confirmed as a Connecticut Justice to the Connecticut Judicial Branch.

I wish that McDonald be investigated for receiving funds, either he himself, or his significant other, for political favors.

I have witnessed Andrew McDonald representing the interests of lawyers, police, and the operators of the judiciary when he was a legislator. It shows where his loyalties lie, and they aren't with the people. If McDonald did not act when citizens testified about police brutality and judicial misconduct, and then asks no questions, that is telling.

I believe that in an interview I did with Michael Nowacki of New Canaan, which is on youtube.com seems to accuse McDonald, and/or his significant other, taking 100's of thousands of dollars, or even millions in no-bid contracts for favors for the Connecticut Executive Branch and/or the current Connecticut Governor.

If an individual can pander to special interests and meander around each of the 3 branches, this political insider will slime the Connecticut Government further as being perceived as being even sleazier.

I am going to post links to what I am talking about in an internet blog post with today's date, here: <http://thegetjusticecoalition.blogspot.com/>

Should anyone become a judge who is being appointed as a political favor? Should the appointment then be considered some sort of bribe or future expectation of ruling for those who helped with the nomination?

Please act for the people of Connecticut. I was run out of Connecticut against my will because the Executive Branch, a Connecticut State Police Liaison to the police saw to it I was arrested, imprisoned, and then kicked out of Connecticut for having proposed Civilian Oversight of Police legislation. So, please consider the content of this letter for action and relief.

Thank you,
