Subject: HB 6690

Dear Judiciary Committee Members:

It is important that you support HB 6690. Much like children, animals who are subject to abuse are not able to speak for themselves. These animals' best interests must be represented, and we must work to act on the fact that the abuse of animals is often just the beginning for the abuser. A person who is capable of abusing a defenseless animal is also capable of abusing a child. He/she is a red flag and needs to have proper treatment and punishment.

Thank you for your consideration.

Sincerely,

Sandra L. Lok
