Subject: Testimony

Dear Committee,

I Ralph J DeStefano am in favor of bill SB- 123 An act repealing the risk reduction program , I am a 25 yr tax paying citizen in this state and cannot believe that we need to repeal a bill put in place that releases hardened criminals out early this is outrageous and frankly puts my family and i at risk . This bill needs to be repealed as soon as possible these criminals are released early and go right back to doing what they do best ,robbing,raping,killing and stealing there is only one place for these types of criminals and that is jail and i will be holding all those accountable on this because voting time is right around the corner ,so do what is best for our state that we live in.

Sincerely,
Ralph J DeStefano
