To Whom It May Concern:

I would like my voice to be heard about Mr. Andrew McDonald. I don't believe he should be confirmed. He blatantly led an unconstitutional attack against the Catholic Church in 2009 and pushed the Bathroom Bill through in 2011. I believe that if he is nominated and confirmed he will continue to attack the constitutional rights of the citizens of the State of Connecticut. Mr. McDonald should not be confirmed and should not be allowed on any bench, where he can continue to attack the values of family, marriage, religious liberty and the right of women of all ages NOT have men in public restrooms with them. What he has done is an attack on our liberties and men and women and an attack on our constitutional rights. I urge ALL of you to vote no on his nomination.

If he is nominated and confirmed, I fear for the future of this state and the future of our constitutional rights in the State of Connecticut.

Sincerely,

Danine M. Chevarella
