

Dear sirs and madams

My name is peter Grusauskas

I am currently president of the Goshen Volunteer Fire Company and owner operator of Goshen Oil Company Inc.,

I am here to oppose SB905, which, wishes to extend Workers comp coverage to emergency dispatchers from portal to portal. I feel this is excessive and will be costly to the employers. No other private employees in the state, including my own, are extended such coverage as they drive their private vehicles to and from work. Why would an employer have to be responsible for his workers private time health and welfare, when they have no control over the workers possible reckless driving habits or choice of travel to work?

Thank you for the opportunity to share my concerns with your committee

Peter Grusauskas

President Goshen Volunteer Fire Company, Inc
