

Please Support HB 6519

Hi, My name is Keith Baran and I am a concerned citizen. I am writing because I want you to support the **HB 6519 AN ACT CONCERNING THE LABELING OF GENETICALLY ENGINEERED FOOD** bill. I care about GMO labeling because I do not feel that this food is safe and I have the right to know what is in my food. Labeled foods will allow for me to make informed decisions in a quicker manner. I would appreciate if you could support CT HB 6519 labeling bill this term so that you, I and others can all know what we are eating.

Thank you.
