

CARBONE HB 6519

Dear Sir/Madam,

I am writing to show my **support** of the GMO Labeling Bill currently under consideration in the State of Connecticut.

I am concerned mother of two who recently eliminated GMOs out of my family's diet. We have ALL noticed considerable improvements in our health and energy. I do not believe in science experiments with our food supply, and I urge you to consider the right of all citizens in the State of Connecticut to **know** what's in the food products we buy. I believe in thorough transparency; i.e., labeling of all products.

Thank you for hearing my words today. I trust that you will do what is best for not only my family, but for this whole state, by passing HB 6519.

Best Regards,
Kirsten Carbone
