

HB 6519 AN ACT CONCERNING THE LABELING OF GENETICALLY ENGINEERED FOOD

Dear Committee Members,

My name is Sherie Chapman and I am a concerned citizen. I strongly request that you support legislation requiring labeling of genetically engineered foods in our state. I want to know what I'm feeding myself and my children. Please help Connecticut to be a leader in this cause. Support CT H.B. 6519 and pass legislation to label GE foods this term.

Thank you,  
Sherie Chapman
