

NARROW - 6519

Hi, My name is Taryn Narrow and I am a concerned citizen. I am writing because I want you to support the **HB 6519 AN ACT CONCERNING THE LABELING OF GENETICALLY ENGINEERED FOOD** bill. I care about GMO labeling because I do not feel that this food is safe and I have the right to know what is in my food. I spend hours pouring over food labels and web sites each week trying to decide if I want my family to eat the products available to me. I would much rather be spending that time playing with my children but knowing what they are eating is equally important. Labeled foods will allow for me to make informed decisions in a quicker manner so I can go home and have more quality family time. I would appreciate if you could support CT HB 6519 labeling bill this term so that you, I and others can all know what we are eating.

Thank you.
