

Trobaugh **HB 6519**

Hello, I am a resident of East Hampton, CT., and I am writing to urge you to support HB 6519, Concerning the Labeling of Genetically Engineered Food.

We have a right to know what's in our food, and to be able to make informed choices about our nourishment from honest labeling. Since GMO's have not been proven to be safe, and have been linked to many serious physical problems - to the extent that many counties around the world are limiting or banning them - those of us who want to avoid ingesting them should be allowed the right to do so. Otherwise, you are asking us to be willingly poisoned.

Sincerely,  
Sarah Trobaugh
