

Senator Gerratana, Representative Johnson and members of the Public Health Committee:

My name is Cathleen Cutler and I live in Redding, CT. I am writing in support of Raised Bill 6592: an Act Concerning Certified Homeopaths. I strongly support this bill for statutory recognition. I believe allowing Homeopaths who have achieved the highest level of homeopathic education and training through national certification should be recognized to practice homeopathy in Connecticut.

More and more people, such as myself, are seeking a natural forms of healthcare when possible. Homeopathy has proven to be a safe and effective way of treating health problems as evidenced by myself, other family members and friends. I am currently receiving services to help primarily with sleeping issues. I first chose to seek the most natural, least invasive and least costly way to resolve health issues. I feel very comfortable and confident in the knowledge and services provided by the homeopathic provider that I receive services from. I encourage others to consider homeopathy services, and feel strongly that many more people could greatly benefit from such services if was more readily available in Connecticut.

I appreciate your consideration in support of Raised Bill 6592.

Sincerely,
Cathleen Cutler
