

Good morning Senator Gerratana and Representative Johnson and members of the Public Health Committee.

I am Dr. Nancy A. Mazur, and I have been a Naturopathic Doctor practicing in CT since 1984. I have been interested in expanding the scope of homeopathic

practice in CT for a long time, as I have seen first hand what a safe and effective

therapeutic modality homeopathy is.

This bill, #6592 : An Act Concerning Certified Homeopaths, is an opportunity for well trained homeopaths to legally practice what they have learned in the very comprehensive and well respected programs that are recognized as good homeopathic training by the CHC. It is for this reason that I support this bill and would request that you do the same. This proposal keeps the standard of homeopathic practice high by allowing nationally board certified classical homeopaths (CCHs) to be able to offer their services in CT. The CCH is the highest level of achievement for a professional homeopath and the credential is recognized worldwide.

As a N.D. who has witnessed repeatedly the value of homeopathic treatment, I am happy to

support expanded access to well trained homeopaths for the citizens on CT.

Thank you for your consideration and support of this bill. It is a wonderful opportunity for

the State to take the lead in freedom for its citizens to chose their healthcare methods, while

at the same time insuring that practitioners are well trained, qualified and monitored in their professional capabilities.

In Health,

Dr. Nancy A. Mazur

West Hartford, CT.
