

**Prause SB374**

Chairman and Committee Members,

I can see where there is a concern for the mental health of children and families in the aftermath of Sandy Hook, however, I urge you to look at what programs are already in place and are not effectively getting the help to those who need it. Are there current funds and resources directed at research in this area? And in the area of nutrition and mental health?

I oppose the current Bill 374.

Thank you for your service,  
Rebecca Prause
