

Support for HB 6519 An Act Concerning the Labeling of Genetically Engineered Foods.

Representative Hurlburt:

My name is Philip Bognar, I reside at 192 Slater Road in Tolland, CT.

I request that you support HB 6519 An Act Concerning the Labeling of Genetically Engineered Foods. Consumers should be able to make decisions based on accurate full disclosure labeling of food. We can not rely on voluntary labeling by some companies or some grocers. This should be a uniform requirement for all products sold in Connecticut.

Thank you.

Philip Bognar
