

HB 6519

3/14/13

Dear State Representative D'Agostino,

I am writing to ask you to please support HB 6519 and 6527 to require labeling of GMOs. The right to know what foods are genetically modified is as basic a right as knowing the ingredients in our food and the nutritional content listings of such things as calories, protein, fat, cholesterol, sodium, sugar and so forth.

Thank you in advance for providing needed leadership in this important fight to help enable knowledgeable eating habits and provide a safer food supply.

Sincerely,

Diane Hoffman  
1190 Wilmot Rd.  
Hamden,CT 06514 ;- )
