

Good day to the, Chairs, and seats. I'm Gregg Marchand from the city of Willimantic, Connecticut. I oppose and want to comment on the bill number No. 6598 (RAISED) AN ACT CONCERNING PUBLIC PROTECTION. on the grounds of having police to be armed when off duty on school grounds. What sense does that make? If a policeman is off duty he's a pedestrian and a citizen just as you and I. There you go again making these frivolous laws making police above the law. A policeman can protect himself, but you and I cannot. All acts with public safety should without any doubt include random drug testing for all armed police that have power of arrest.
