

To quote a spiritual leader "if you have truth to speak, speak it with love or the message and the messenger will be rejected". I do have truth to speak. The truth is I love you. Crazy to say to a legislative body right? I love all the people in the LOB and at home as well. I love this country, our Constitution, the bill of rights and the democratic process that our forefathers crafted for this Constitutional Republic that we so love and enjoy. I love my wife and 4 kids. I hope that my attempts to teach my children the value of life are firmly seated in their brains and hearts because in the absence of love I believe violence is born. Your first mission as a legislator should be that you first do no harm. Let those that will protect one another and give love to one another do so. Otherwise anything else you do is harmful.

I am a Nursing Assistant a phlebotomist and an EKG technician. At work I assist those who cannot perform activities of daily living anymore such as dressing or toileting. I serve on a memory impairment unit. I have many useful tools at my disposal that without them diminishes my ability to give care. Outside of work I have a small medical bag I carry with me everywhere I go. People goof on it and call it a purse but invariable they will need something from it. They always do. I'm always ready to help with epi pens, antibiotics, bandages and wound cleaners. I have aspirin for those in threat of heart attack or simply a headache. I also carry a 9mm Glock with a 15round magazine. At home I use an AR15 for home defense because the DEPT OF HOMELAND SECURITY SAYS IT IS SUITABLE FOR HOME PROTECTION. It is the right tool for the job. I am not a member of any vigilante group or paramilitary organization. I don't live in my head replaying scenarios where I have to draw my weapon and I get to be the hero. I am not a fighter I'm a lover. In all respects I am very much a hippie. Only I bath, don't do drugs and don't ask what my country can do for me. I instead ask what I can do for my country.

I am not unique. In my experience the family values and values that are wholly consistent with that of our founding fathers are ingrained in Connecticut's residents. I'm proud to say that. Recently we have been under childish propaganda attacks by the very people we put in place to work for us. We are called the fringe of the fringe by our own arrogant and out of touch Governor? I have read the bills that are proposed and I'm disgusted that you would get in the way of our ability to provide love and protection for one another. It is an obamanation. You can and have done better. The laws in place prevented the Sandy Hook murderer from possessing weapons he intended to use on innocent people. I applaud that. We don't need any more laws. The laws worked. Now I charge you with the task of empowering the community to combat what happens after the criminal element decides to pursue the goal of violence further.

I implore you reread the legislation that is being proposed. Is this going to help me...Jason Roberts to provide love and protection? Having undergone more than adequate training in firearms and medicine respectively I submit that I am qualified to say I can identify a tool suitable for a job. And in this case I say these bills make perfect fertilizer. One final thing. One day...if you are lucky enough to make it to the later years of life you will need care, maybe you can't hold your bowels. You had better pray that it's someone like me coming to your aid instead of someone angry who's rights got trampled while you were blessed with the opportunity to legislate. Because, to use another quote..."Karma is a bitch". See ya soon! Thank you.
