

I urge that you vote on and pass stronger gun safety legislation. I support a strengthening of the ban on assault-style weapons, a ban on high capacity magazines, universal background checks, registration renewals, stronger storage laws, and limiting handguns purchases to one a month.

Tomorrow is the 3-month anniversary of Newtown. We have not forgotten, and the "Connecticut Effect" will not go away. NOW is the time to pass the laws that will make our citizens safer. A Quinnipiac Poll shows that the vast majority of Connecticut voters want these laws passed. NOW is the time to stand up to lobbyists and do what is best for the people of Connecticut.

Sincerely,

Katharine Dusenbury
