

I wish I could be in Hartford again tomorrow (March 14) to voice my support for comprehensive gun control legislation. This is the three month anniversary of the tragedy at Sandy Hook and it is shameful the CT legislature has yet to act on passing a comprehensive gun control laws. WERE those 26 lives lost in vain? ENOUGH IS ENOUGH. The message is loud and clear according to the recently released Quinnipiac Poll - CT wants tougher gun laws. We will settle for no less than:

- A ban on military style assault weapons with any military feature.
- A ban on large capacity magazines capable of holding more than ten rounds.
- Expanding safe storage laws
- Requiring universal background checks on ALL sales and transfers
- Required registration of all handguns and an annual renewal
- Required permit to purchase and carry ALL guns and to purchase ammunition
- Limiting handgun sales to one gun per month

Thank you for your time.
