

As a law abiding citizen, I am against my government further restricting my rights under the Second Amendment of the Constitution of the United States.

I can understand Connecticut Legislators and the Governor stepping up to the plate and helping the mentally ill or taking action to focus on the real problem, which is how to protect us from the mentally ill.

The Sandy Hook incident was perpetrated by a mentally ill individual, hence this is what you should be focusing on, not punishing and restricting the freedom of law abiding citizens.

A pipe bomb or four pistols with 10 round magazines, or gasoline and matches in the hands of an insane person could have done as much damage. Bill 1076 does not solve anything, it simple removes freedom and circumvents protections under the second amendment. Focusing on gun cosmetics, number of rounds and making laws to basically make gun ownership so difficult, you are in effect circumventing the second amendment. Confiscation of legally obtained property is anti-American, draconian and does not address the problem.

SB 1076 is not a solution to a problem, it simply takes freedom away from law abiding citizens and makes Connecticut more of an unfriendly state to the good people, while doing nothing to help the mentally ill.

Sincerely,

Donald G. Turnbull
