

I support a ban on sales of all "assault style" firearms. These weapons, in all modifications, should only be available to law enforcement and military personnel.

I support a ban on the sale and possession of magazine cartridges holding more than 10 rounds. These should only be available to law enforcement and military personnel.

I support mandatory background checks for all firearms purchases.

I support limiting the purchase of handguns to one per month.

I encourage you to pass these bills now.
