

We are Sandy Hook residents and fortunately did not have a child attending Sandy Hook Elementary at the time of the tragedy however almost every family we have come to know since we moved here 7 years ago was directly affected by this horrible event.

Little by little our town is coming out of the fog of sadness and disbelief and moving towards helping make our town and our country a safer place and we are starting with you and new gun control legislation. Making it difficult for weapons to get into the wrong hands.

You know the details and you know what you should do. NOW DO IT. Don't make us beg and don't make us regret putting you in office.

John and Erin Corcoran
Sandy Hook, CT
