

Today marks the three-month anniversary of the tragedy at Sandy Hook. Now is the time to take action to enact *meaningful* common sense gun control and gun safety legislation.

THE PROPOSED BILLS ARE NOT STRONG OR COMPREHENSIVE ENOUGH. Please support a ban on military-style assault weapons and high capacity magazine sales and possession, universal background checks, and universal and annual registration renewal.

No rights are without restrictions and responsibilities. There is ample legal and historical precedent for restriction to constitutional rights. The Second Amendment does NOT entitle us to unfettered, unrestricted gun ownership.

This is the *least* we can do for the families of the victims of Sandy Hook and the countless other families affected by gun violence in this country.

Respectfully yours,

Lisa Leibowitz
