

I attended the hearings in January, the March for Change on 2/14, and the legislative meetings today (3/13) in Hartford. I am very disappointed that I can't be there in person tomorrow. I am writing to say that Connecticut residents demand change NOW. At a minimum, we are looking for immediate support of Governor Malloy's proposed legislation. We cannot control human behavior but we can limit access to deadly force. Assault weapons do not belong in the hands of civilians – we need to strengthen CT's current ban on assault weapons. Please support an immediate vote on Malloy's proposal (do not delay any longer!) and agree to ban any weapon that has one or more military-style features and ban magazines with a capacity greater than 10 rounds.

Thank you.
