

Good afternoon Legislators and members of the Transportation Committee, ***my name is Vianney Moreno, and I live in West Haven, CT. I am a parishioner of Saint Louis Church of West Haven*** and I am here to testify in favor of the bill No. 6037.

I am totally sure that it is very important to have a driver's license. I am a mother and I need to work. It limits me greatly not having a driver's license.

I know that having a driver's license would give me the security and peace-of-mind, not only for me but also for my family. I do not like feeling fear of whenever I am driving and there is a police car behind me.

Thank you very much.

Vianney Moreno
