Subject: Testimony on Bill #6050

Dear Mr. Kess:

Please register my opposition to border tolls on CT highways. While I generally favor user fees over taxing everyone, tolling an urban border area like Danbury would require either closing many vital exits or flooding local roads with people exiting for a mile or two to avoid the tolls. Interstate highways were supposed to be tolled only by grandfathering. Tolls force drivers to attend to something other than driving, whereas we do not need yet another distraction added to driving.

Sincerely,

John F. Pitrelli
Danbury, CT
