Attachments: image001.wmz

No Tolls should be put up unless the State removes all the taxes on gas and diesel for cars and trucks. This will encourage traveler to visit Connecticut and shop, thus increasing Sales Tax and employment income tax for Connecticut.
Then and only then Toll Both could be set-up when travelers are entering Connecticut, no Tolls should be collected when exiting Connecticut.
The traffic slow up would happen before entering Connecticut and not when leaving.
All the taxes has to go to the State and none of the towns.

Respectfully,

Anthony Camilleri
