**Subject:** border tolls

Mr Kess,

I am opposed to any tolls on our border. It will prevent any new commerce and will only add more expense to companies already in our State who must ship their product out of State by truck. Plus the fact that we will have to pay every time we come and go from our State and we are financially burdened enough already thanks to this incompetent Governor's handling of our economy. Tolls are also a hazard with sometimes deadly consequences, as we have already seen in our past. You need more money for transit work. then get Malloy to cut spending.

Charles DeJoseph  
Seymour, CT.
