Subject: testimony to be filed for porposed Bill no. 645

I am Gregg Marchand from Willimantic, CT. to comment on the Proposed S.B. No. 645 AN ACT ALLOWING POLICE OFFICERS TO TOW MOTOR VEHICLES WHEN DRIVERS FAIL TO PROVIDE PROOF OF INSURANCE. (TRA). I oppose this bill on the grounds of it is possibly taking advantage of the people that are not so well off. For example those that do not have enough money to secure insurance for a time will now get their car towed which is a charge well over one hundred dollars plus the daily storage charge. It's too much, figure if there's a person that is having trouble with insurance payments will most likely not be able to pay for the tow and the storage and the fine for not having car insurance. Then end up losing the car because the payments exceed what the car may be worth or the persons wallet may never be able to pay all these costs. Besides that's giving police more power to trespass upon a citizen. Give the person a ticket and or a court date for the violation. This way the person will get insurance and not have these other expenses in order to get the vehicle back.
